

Dear Dr. Jaleh,

Many Thanks for your concern, the 2 books, and your kind letter that you send.

iam sorry because i couldnt contact you in the last period but i was too busy and didnt get online all this time because iam preparing my documents to go ti Iran (mission) to study for MD. and PDF there.. it's a very good chance.

about the reason that make me chose "Mog Dar Mog" is that: i read it when some friend get it from iran while his visit their, he give the book to me as a present because he know that i like the poetry too much. so i read it and felt as i know Jaleh personally, Jaleh that love "home" = country, i felt your the feeling of emigration and lonely that you feel & that i felt while reading.

i like the book more and more when i felt that you dream with a new world of peace without war or hating.

before that i read some poems for "Varvien Eatsami" and "Nema Youchige" and get that there is some influence of Nema Youchig upon you.

i wish you success more and more in you coming boosk, i wish you happiness and "big smile in your life.

yours Ahmed Atef
